**WWW.RACOM.EU**

All the users of [www.racom.cz](http://www.racom.cz) are announced, that from 1. 3. 2007 we have launched new domain [www.racom.eu](http://www.racom.eu). New webpages [www.racom.eu](http://www.racom.eu) has been not only redesigned, but also revised, rearranged and translated into six widely used world languages.

**MULTIMEDIA PRESENTATION**

Abreast with the new [www](http://www.racom.eu), we have also prepared a new multimedia DVD presentation. Six short movies introducing RACOM, its products and references are available on [www.racom.eu](http://www.racom.eu). We have also published a printed catalogue, better say Company profile, containing basic information about our company and its production program. In a case you are interested in postal of DVD and catalogue, please fill your address in this form: [http://www.racom.eu/eng/support/video\\_request.html](http://www.racom.eu/eng/support/video_request.html)

**RACOMNEWS**

In March 2007 we have issued a next copy of our occasional bulletin RacomNews: <https://www.racom.eu/download/bulletins/free/racomnews/RacomNews-2007-04.pdf>  
This copy is also available in printed version and will be dispatched together with DVD and catalogue.

**EMAILS**

Domain [racom.eu](http://www.racom.eu) will be also used for mail communication. New mail addresses will be created according a schema [firstname.surname@racom.eu](mailto:firstname.surname@racom.eu). Existing email addresses [@racom.cz](mailto:@racom.cz) remains active.

**WIDEBAND RADIOMODEMS**

The development of wideband radiomodems with the data rate of 133 kbps has been successfully finished. Half-duplex as well as full-duplex modems for 160 MHz band are under the production now in both versions 5 or 25 watts: <http://www.racom.eu/eng/products/wideband-modems.html>

**PRINTED CIRCUIT ASSEMBLING**

Because of the building-up the new factory in Blansko and significant modernization of technology for printed circuit assembling, RACOM is capable to offer a free capacity for double-sided surface and mixed assembling in accordance with the RoHS directive: <http://www.racom.eu/eng/services/smt.html>  
In a case of your interest to use our hi-tech technology, please do not hesitate to contact us on [racom@racom.eu](mailto:racom@racom.eu)
